E-Service, myE-Service and E-Connect

The most important advantages at a glance

E-Service

- Help with selecting the most suitable steel
- Fast and efficent feasibility calculations
- A variety of useful tools to support manufacturing processes
- Electronic confirmation of arrival

myE-Service

- Important information about your current order status
- Direct access to order-related documents

E-Connect

- Automatic bar code scan for reliable identification of Dillinger heavy plates
- All certificate information and test results related to the individual plates
- Clear presentation of the chemical analysis and option of transferring the values directly into the standard calculation tools, thereby obtaining valuable data, e.g. the optimum pre-heating temperature for welding
